

Manage your risk!

Electrical Appliances

LOOK FOR...

Note: Unsafe electrical practices past and/or current can increase risk of potential shock and fire hazard.

**Electrical
Safety
Authority**

1. Use approved electrical products - safe electrical products bear the mark of a recognized certification agency. (for a list of recognized markings visit www.esasafe.com)

2. Contact a licensed electrical contractor - if the appliance does not have a plug to ensure proper electrical connections, safe installation and efficient operation.

3. Protect your family and your investment - hire a licensed electrical contractor and request a copy of the "**Certificate of Inspection**" from the Electrical Safety Authority - your record electrical work meets Ontario's Safety requirements.
