

Manage your risk!

**WORKING
IN THE
DARK...**

**Wiring
outside?**

Note: Unsafe electrical practices past and/or current can increase risk of potential shock and fire hazard.

**Electrical
Safety
Authority**

1. Use approved electrical products - safe electrical products bear the mark of a recognized certification agency.

2. Ensure safe wiring - use exterior rated wiring & connections and Ground Fault Circuit Interrupters (GFCI).

3. Protect your family and your investment - hire a licensed electrical contractor and request a copy of the "**Certificate of Inspection**" from the Electrical Safety Authority - your record electrical work meets Ontario's Safety requirements.
